

## LIFTING GEAR & TACKLE

We specialise in the manufacture of a comprehensive range of products that are used within applications requiring lifting gear and tackle.

Our comprehensive range of products, including eye bolts, shackles, and hooks, are all manufactured in-house to customer requirements.

Our various types of forging, bending, and welding capabilities allow for the production of both standard and bespoke lifting components, with various material and finish options to meet diverse industry needs such as construction, marine, and transportation.

### OUR LIFTING GEAR & TACKLE RANGE INCLUDES:

- Lift Suspension Eyebolts
