

SKIP & CONTAINER COMPONENTS

Manufacturer and supplier of an extensive range of components for the waste and recycling industry, catering to both skips and roll-on roll-off containers.

Specialising in forged components, including skip lugs and hinges, we aim to provide superior strength and resilience through compressed and directional grain flow. This process results in strength and durability that is not achieved with the much cheaper cast alternatives available in the market.

In addition to our standard offerings, our extensive manufacturing capabilities allow us to produce fully bespoke engineering solutions that are tailored to meet the exact specifications of our clients.

OUR SKIP & CONTAINER RANGE INCLUDES:

- Heavy Duty Roller Track
- Skip Lugs
- Lug Mounting Plates
- Curved Bars
- Cheek Plates
- Hinges
- Steel Rollers
- Poly Coated Rollers
- Roller Shafts
- Mounting Plates
- Door Lock Components
- Ratchet Load Binders
- Eurobin Accessories
- Strap Hinges
- Spade Hinges & Pins
- Tailboard Lugs
- Rope Hooks
- Lashing Rings & Staples
