

SPECIAL FASTENERS

We specialise in the production of bespoke fasteners, in a diverse range of ferrous and non-ferrous materials, to customer designs.

We specialise in manufacturing high-quality, hot-forged fasteners, offering a comprehensive one-stop solution for bespoke bolting requirements.

With 16 upset forging cells capable of working with diameters from 10mm to 100mm and lengths up to 6000mm, we are capable of forging an extensive range of standard and custom head styles in various materials, including carbon, alloy, super alloys, stainless, duplex, and non-ferrous.

Our manufacturing range is fully supported by in-house CAD/CAM and tool-making capabilities, ensuring short lead times for custom dies, and providing reliable, British-made fasteners for critical applications across a diverse range of industries.
