

U-BOLTS, J-BOLTS & L-BOLTS

Specialists in the manufacture of bespoke U-Bolts, J-Bolts, and L-Bolts to customer dimensions, materials, and finishes. Metric thread sizes up to M100 a speciality.

Our extensive in-house cold and hot bending processes enable us to manufacture a diverse range of U-bolt, J-bolt, and L-bolt styles as shown in our illustration above. Unique bent fastener forms are a speciality, produced to your exact form and material requirements.

We can also manipulate round into flat or simply bend round or square section material to the desired form. Rolled or cut thread forms to suit. Galvanised, zinc plated, painted, and other finishes on request.
